

Attachments for Sweeper

Sweeper Attachments - AUSA lift trucks offer supreme functionality and are popular for their compact, ergonomic and highly modular design. They offer versatility and stability when handling loads on the job location and are considered really dependable. With respect to different forklifts, AUSA models have a great diameter of their wheels that helps to guarantee favorable load suspension in the cab and in the blades. This allows the forklift to generate an optimum working productivity over rough and variable surfaces.

AUSA company head office is situated in Manresa, Spain which is situated in the interior of the province of Barcelona. The production plant is likewise at this site and features a total surface area of over sixty four thousand square meters. AUSA has subsidiaries situated in the China, UK, Germany, Madrid, France and Florida. The business exports over sixty percent of the machines they manufacturer and sells its products throughout 225 distributors in over 70 countries.

Each and every forklift constructed by AUSA is obtainable outfitted along with their automatic hydrostatic transmission. This provides automatic breaking in deceleration and precision movement of the forklift providing an additional level of productivity and safety. The hydrostatic transmission allows the operator to rapidly adjust to the lift truck that is vital if the load is really not easy to handle and when terrain situations are difficult.

The operator cabin on the AUSA forklift is the only one on the market that is frontal-folded to permit efficient and easy access for periodical upkeep. Highly modular, these cabins are obtainable semi-closed, soundproof closed or open. For northern climates heated cabins are a choice, plus, air conditioning is incorporated in a back post of the cabin. Various tire widths, grips and attachments are also obtainable in order to suit whichever of the lift truck models.

AUSA is among the world's best in compact equipment, specializing not only in rough-terrain lift trucks but also site dumpers, urban sweepers and tool carrier vehicles. With service and sales in over 70 countries within 5 continents and over 200 sales depots all over the globe, AUSA is an industry leader.
